Set up and use your R717 Hotspot – Quick Steps

1. **Insert the Battery**

    *   Remove the back cover using the thumb catch on the bottom edge of the hotspot.

    *   Align the battery's contacts with those inside the battery compartment and gently press down until the battery is seated.

    *   Replace the back cover.

2. **Charge the Battery**

    *   Insert the small end of the USB cable into the micro-USB charging port on the right side of the hotspot.

    *   Plug the charging adapter into a standard AC power outlet.

3. **Get Ready**

    *   Make sure you are in an area covered by your service provider.

    *   Make sure the device you are trying to connect to your Hotspot has its Wi-Fi (wireless network connection) mode turned on.

4. **Connect to Your Hotspot**

    *   Turn on your hotspot and your Wi-Fi- enabled device (computer, tablet).

    *   Use the Power button on your hotspot to scroll through screens to display your hotspot's name and password.

    *   Open the Wi-Fi application or Wi-Fi controls on the device that you want to connect to your hotspot.

    *   Enter the hotspot's name and password to connect your device to the hotspot.
